Residence: Corfu, Greece , Military Service: Fulfilled (Hellenic Army, Sep 2017- Jun 2018)

SUMMARY

Data engineer with a solid data science background and a track record in data analytics, machine learning, and software systems integration. Skilled in designing ETL pipelines, managing Power BI reporting, and developing predictive models. Demonstrated ability to work in collaborative, cross-functional teams aligned with agile methodologies. Strong communicator with experience onboarding teams and translating complex data insights into actionable knowledge.

EDUCATION

MSc in Data Science (90 ECTS) International Hellenic University Thesis: "Bending Time Prediction" - Implemented Supervised Machine Learning Algorithm in Python	Graduated Apr 2021 Grade : 8.73/10 Grade : 10/10
Diploma in Mechanical Engineering with Specialization in Industrial Management (5-year studies - 300 ECTS) Aristotle University of Thessaloniki Thesis: "Revenue Management in Elea Beach Hotel" - Exploratory data analysis, statistical analysis in Excel, and simulation in MATLAB	Graduated Nov 2017 Grade : 7.03/10 Grade : 10/10

TECHNICAL SKILLS

Tools & Platforms: Azure, Microsoft Fabric, Power BI, Databricks, SSIS, AS/400, Microsoft Excel

Programming: Python, SQL, DAX, R

Certifications:

- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Data Engineer Associate (DP-203)
- Microsoft Certified: Azure Data Fundamentals (DP-900)

PROFESSIONAL EXPERIENCE

Witside, Athens: Data Engineer (Fully Remote) • Consult client from energy sector in system migration (SAP BW, Databricks, Fabric) • BW migration to Microsoft Fabric (SAP BW, Terraform, Fabric, Dbt, Git)	Sep 2025 – now
Deloitte, Athens: Data Engineer Consultant (Fully Remote) • Designed, developed, and enriched ETL processes for corporate clients of a major Greek bank, Eurobank (DB2, AS/400) • Developed datasets and reports to track internal KPIs (Power BI). • Worked as part of an agile team, participated in sprint planning, daily stand-ups, and retrospectives.	Jul 2023 – Aug 2025
Delmetal, Thessaloniki Full-Stack Data Professional (Fully Remote) • Developed the company's data warehouse and automated data movement processes. (SSIS, SSMS) • Created data modelling, visualizations and dashboards to monitor operations and support decision-making (Power BI) • Introduced supervised machine learning algorithm to predict precisely operating time. (Python)	Aug 2021 – Jul 2023
Mechanical Engineer (On-site) • Led software migration efforts, ensuring seamless transition and minimal disruption to operations • Designed and optimized sheet metal parts (2D using Autocad and 3D using Solidworks) • Generated G-code for CNC laser and bending machines, managed production flow. • Mentored and trained new members.	Jan 2019 – Aug 2021
